

## Puts An End To Catarrh Troubles

You Inhale and Exhale This Medication and—Away Goes Your Catarrh.

There must be readers suffering from chronic catarrh who would like to know how they can stop catching cold after cold, for they must realize that sooner or later this may lead to serious deafness and injury to the system in general.

Dr. Blosser, a respected physician, and for forty-three years an enormously successful specialist in catarrh. In the discovery of a pleasant, direct method that can be used by man, woman or child.

His Remedy is made from medicinal herbs, flowers and berries, which you inhale in a dainty pipe or cigarette, and inhale the vapor into all the air passages. It contains no tobacco, even though it is used in the same manner.

Dr. Blosser's Catarrh Remedy is equally effective in all forms of catarrh, bronchial irritation, asthma, catarrhal headache and ear troubles that may lead to deafness. You will breathe better and feel better after using it.

For ten cents (in coin or stamps) a small package will be mailed, containing some of the Remedy made into cigarettes, also some Remedy for smoking in a pipe and a neat little pipe. Address The Blosser Company, Box 419, Atlanta, Ga.

NOTE—Should your druggist not carry Dr. Blosser's Catarrh Remedy in stock, he can secure it for you. Druggists do not supply the Trial Outfit.—(Adv.)

Hot Water for Sick Headaches

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headache of any kind is caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood, through the lymph ducts, excite the heart, which pumps the blood so fast that it congests in the smaller arteries and veins of the head, producing violent throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetanilide, aspirin or the bromides which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drunk before breakfast for awhile, will not only wash these poisons from your system and cure you of headache, but will cleanse, purify and freshen the entire alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar. If you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation or sour acid stomach, begin the phosphate hot water cure to rid your system of toxins and poisons.—(Adv.)

HOW TO FIGHT SPANISH INFLUENZA

BY DR. L. W. BOWERS.

Avoid crowds, coughs and colds, but fear neither germs nor Germans! Keep the system in good order, take plenty of exercise in the fresh air and practice cleanliness. Remember a clean mouth, a clean skin, and clean bowels are a protecting armour against disease. To keep the liver and bowels regular and to carry away the poisons within, it is best to take a vegetable pill every other day, made up of May-apple, aloes, jalap, and sugar-coated, to be had at most drug stores, known as Dr. Pierce's Pleasant Pellets. If there is a sudden onset of what appears like a hard cold, one should go to bed, wrap warm, take a hot mustard foot-bath and drink copiously of hot lemonade. If pain develops in head or back, ask the druggist for Anuric (anti-uric) tablets. These will flush the bladder and kidneys and carry off poisonous germs. To control the pains and aches take one Anuric tablet every two hours, with frequent drinks of lemonade. The pneumonia appears in a most treacherous way, when the influenza victim is apparently recovering and anxious to leave his bed. In recovering from a bad attack of influenza or pneumonia the system should be built up with a good herbal tonic, such as Dr. Pierce's Golden Medical Discovery, made without alcohol from the roots and barks of American forest trees, or his Iron Tonic (iron tonic) tablets, which can be obtained at most drug stores, or send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.—(Adv.)

THE JOY OF MOTHERHOOD TOLD

Women Tell How They Made Even One of Great Happiness.

In every part of the land there are women who tell how, through the application of Mother's Friend, they entirely avoided the suffering usually incident to motherhood. They relate in no uncertain terms how from its use the days were made bright and cheerful and the nights calm and restful, how the crisis was passed without the usual suffering experienced when nature is unaided, and how they preserved their health and strength to devote to the rearing of their children and to the things life holds for them.

Mother's Friend is a most penetrating remedy, prepared especially for expectant mothers from a formula of a noted physician. Strain upon the ligaments is avoided, and instead of a period of discomfort and constant dread it is a season of calm repose. The hours at the bedside are lessened, Mother's Friend enables the mother to retain her natural grace, and her skin is not cracked and does not become hard or disfigured.

Write to the Bradfield Regulator Company, Dept. L, Lamar Building, Atlanta, Georgia, for their Motherhood Book and obtain a bottle of Mother's Friend from the druggist today.—(Adv.)

THOUSANDS CASES OF FRAUD INVESTIGATED

GOVERNMENT ALLOWANCES UNDER INQUIRY.

Persons Falsely Claiming to Be Soldiers' or Sailors' Dependents to Be Punished.

Washington, Nov. 8.—Thousands of cases of fraudulent acceptances of government allowances intended for soldiers' or sailors' dependents have been discovered by special investigation of the bureau of war risk insurance, and a campaign of prosecution and recovery has been instituted. As a result, it was announced today that about one-third of the 400,000 claiming dependency, who are receiving checks, will be dropped from the rolls when it is shown that they were not dependent on a soldier after he entered the service.

Legal Wives Suffer.

There are hundreds of cases in which women, not the wives of soldiers or sailors, are receiving allotments and allowance checks, having been named by the men as their legal wives, while the real wives go without government aid. Scores of attorneys are understood to be under investigation for having charged more than \$3, the legal limit for aiding persons to get allotments or allowance remittances. All persons who receive and cash checks to which they are not strictly entitled by law are to be cut off from their remittances, forced to repay the sums they received fraudulently and prosecuted if criminal intent is shown.

To carry on this work, a division of prosecution and recovery has been created. Information or complaints received of improper receipt or use of government allotment and allowance remittances are welcomed, it is said, and should be addressed to general counsel, bureau of war risk insurance, Washington. Charges will be run down by a great corps of investigators, one or more in every city and hamlet in the United States, who serve without pay or at the nominal compensation of \$1 a case, and report on the family situation in each instance.

To Compel Refunds.

Already 2,000 cases of apparent fraud are under investigation and new reports are received at the rate of thirty a day. Twenty-five thousand cases in which relatives less closely connected than wives or children are receiving checks on account of soldiers in service or whom they were not dependent upon before the war are under inquiry, and 5,000 of these are to be compelled to make refunds to the government.

Dandruff Soon Ruins the Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it as it grows. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single flake and trace of it. You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at all drug stores. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—(Adv.)

## ONE HUNDRED DAYS AGO

Huns Near Paris, Now Beg for Peace—French Joyful.

Paris, Nov. 8.—(5:45 a.m.)—One hundred days ago the Germans were less than five miles from Paris. Today they are begging for peace.

After many occasions when hope has been deferred and of bitter disappointment, France knows at last that triumph has come, and gives rein to its unreserved joy. The conviction is universal that whether the German delegation signs articles of capitulation or not, Germany is beaten.

The allied advance, particularly the exploit of the Americans in capturing Sedan, a name which thrills every French heart, shows clearly that continuation of hostilities by Germany can lead only to a military debacle in the near future. This feeling is confirmed by news received from reliable quarters that Germany's internal affairs are drifting toward chaos.

Rain No Hindrance.

Last night the people crowded the newspaper bulletin boards until a late hour, undisturbed by the rain. When the news of the capture of Sedan was flashed there was an outburst of cheers. Joy and enthusiasm increased as yesterday's news of the capture of the "Sambre" and "Meuse" and other patriotic songs. Cafes were thronged. Champagne, which every Frenchman promised himself long ago, sparkled in glasses. The people drank to eternal France, the regained provinces, to the allies, to Premier Clemenceau and Marshal Foch.

MAY WITHDRAW CALLS

Grouwer Confers With Chiefs as to Proceeding With November Entrainments.

Washington, Nov. 8.—Provost Marshal General Grouwer called into conference today the heads of all sections of his office to discuss possible suspension of the November 15 trainings, which with more than 300,000 men have been ordered to army camps.

While Grouwer would not discuss what recommendations he might make to the general staff, it is known that his advisers will advocate warmly withdrawal of the November call, at least if the Germans accept the American and allied armistice terms before the movement to camps begins.

With four million men already under arms over seas and at home, the feeling is growing that no more will be needed, even though it may be a long time before American forces can be recalled from France and some additional men may be sent over.

Beginning Monday, 352,000 men have been ordered to proceed to camp before Nov. 15, including suspended calls, replaced in force. Whether that flow can be stopped depends entirely upon the armistice progress and the general staff's view of the German nation's power for future resistance.

HOAXED INTO CELEBRATING

Each Hour Brings Evidence of Falsity of Reports.

New York. No one in the millions of Americans realized today they had been hoaxed into celebrating the end of the war by publication of United Press dispatches declaring the armistice signed and fighting ended. Twenty-four hours have passed since the country was thrown into a delirium by these reports, which declared the armistice had been signed at 11 o'clock yesterday morning and that fighting had ceased at 2 o'clock yesterday afternoon.

Each hour brings added official evidence that the reports were false and that the American people had been deceived. Not only have official communications from France to the state department at Washington denounced the reports as untrue, but the official statements of the French and British war offices show the fighting still in progress.

Not Till Last Night.

Far from signing an armistice at 11 o'clock yesterday morning the German delegates did not cross the allied line until last night. This is recorded in Associated Press dispatches filed in Paris at 4:30 o'clock this morning. The German delegates were to be conducted early today to the meeting place, which is four hours' journey from La Capelle, the place where they crossed into the allied lines.

Fighting, instead of having ended at 3 o'clock yesterday afternoon, was still going on last night. Furthermore, Marshal Haig's communique of this morning reports an advance along the active battle front, with villages and prisoners captured. Hours after the fighting was falsely reported stopped, the American troops were smashing their way forward on the Sedan front, and the only point in the whole battle line where the firing seemed to have stopped at all was at a point where it was necessary to let the German commissioners pass through.

No One Can Say.

Another Associated Press dispatch from Paris this morning records the official report of the French war office that French troops have reached the railway junction of Liart, twenty miles north of Rethel. No one can say what will come of the meeting of the armistice commissioners today. No one doubts that the end of the war is in sight; that an armistice will be signed and that the fighting will end while terms of peace are made.

But the facts are established by official record that no armistice was signed at 11 a.m. yesterday and fighting did not end at 2 p.m. yesterday.

Greatest Hoax of Years.

The Associated Press did not receive or distribute any of the dispatches which misled the American people into celebrating the greatest hoax of recent years. On the other hand, by investigation through official channels, the Associated Press was able to expose it.

Dispatches from Associated Press correspondents in Europe coming through the censorship freely today as usual, and their character demonstrated that there was no sharper censorship of contents than usual. The dispatch told of advances on the Sedan front today with captures of villages and prisoners and also details of the movements of the armistice commissioners.

EPIDEMIC CONTINUES

Surgeon-General Reports 18,175 Cases of Influenza in Camps for Week.

Washington, Nov. 8.—Influenza continues at all large military camps and stations throughout the country, the total of cases aggregating 18,175 for the week ending Nov. 1, according to a review of health conditions of the troops made public today by Surgeon-General Ireland.

The number of influenza cases for this week is practically the same as the preceding week.

The surgeon-general reports that the disease is now more prevalent in the south and the west than in the north and east. Pneumonia cases developing from influenza are decreasing rapidly, as is the death rate. The total number of deaths from all diseases in all camps, cantonments and departmental troops for the week ending Nov. 1, was 1,275, as against 2,757 for the preceding week.

OLIVER STRUCK BY CAR

Principal in Shell Fraud Case Injured While Going to Court.

Knoxville, Nov. 8.—William J. Oliver, wealthy munitions manufacturer, was struck by an automobile here today and painfully injured as he was on his way to attend the preliminary hearing before a United States commissioner of himself and ten employees charged with making defective shells for the government.

Oliver was boarding a street car near his home when injured and was rushed to a hospital.

It was said that Oliver was seriously hurt, but reports from the hospital were that his injuries were not necessarily fatal.

The preliminary hearing, which has

been in progress two days, was postponed until Monday.

Seriously Injured.

A special from Knoxville says Mr. Oliver's skull was fractured, besides receiving other injuries. He was knocked down and run over by a truck Friday morning as he was about to step onto a car and go to preliminary hearing at the federal courtroom, he and ten other men having been charged with sabotage and attempt to defraud the government. Hearing has been postponed as a consequence.
